

### PEOPLES REVOLUTIONARY COMMANDOS

#### Arise & Fight

We the Peoples Revolutionary Commandos (C.R.P.) take responsibility for the action taken at dawn on March 14 against 3 recruitment offices of the Marines & the Yankee Army located at Caguas & Carolina. This action is in repudiation of the Yankee marines' presence in Vieques & in support of the brave people of Vieques who have risen up to drive away the imperialist invader.

It was in addition a post humous homage to the memory of the revolutionary heroic fighter, Andres Figueroa Cordero, enduring symbol of our liberation struggle.

We issue a call to the independentist organization, to the unions, to cultural & religious groups and to the people in general, that we must organize ourselves in a united form and struggle to the fullest extent against the yankee marines in Vieques. The struggle to redeem Vieques is a struggle against oppression, & thus is the inescapable duty of **all** to support that struggle.

The working people of Puerto Rico are learning a very important lesson - that we will not find justice in the imperialist courts. Only the people's mobilization & organization for the revolutionary struggle will chase the yankees from Vieques & expel them from our country.
